# September

This is the most historical building of our place - the Pinki Evangelical Lutheran Church of St. John built around the 17th century. There is an installation of the map of Latvia in front of it. That was created by the teachers of our school and the students decorated it with the candles to celebrate the Proclamation Day of the Republic of Latvia in November 18.

Piazza del Popolo , the most fashionable meeting place in our city.  
On the right, some houses dating back to the 19th century, and the Baroque church of Sant'Anna and San Gioacchino,  
designed by the famous architect Luigi Vanvitelli. On the left, our Renaissance Town Hall, Palazzo Albornoz and the Venetian Loggia.  
In the middle of the square there is the beautiful Fontana Masini, dating back to the 16th century.  
The antique "Via Aemilia" (187 B. C.) with its original stones, runs across the square.
